 REMAINING ACTIVE WASTE PROFILES AT ROCKY FLATS ENVIRONMENTAL
TECHNOLOGY SITE (SITE) TO BE TERMINATED SEPTEMBER 30, 2005
PSA-002-05

 Pursuant to Section 2.2.2 of the Nevada Test Site Waste Acceptance Criteria (NTS-
WAC), Rev. 5, the following is the list of remaining, active waste profiles that are to be
terminated effective September 30, 2005:

- ARIR-97122002L – Asbestos Contaminated Waste (Friable)
- ARIR-98092007L – Sealed Sources
- ARIR-99092010L – Process/Decommissioning Waste

 The termination of these remaining profiles will effectively close the Site program to
ship waste to NTS. Thus, notification is also given under Section 2.1.5 of the NTS-
WAC to NNSA/NSO that personnel and documents that were maintained in support of
the NTS waste shipping program will also be terminated.

 The successful completion of such an enormous project depends on cooperative
efforts; yours have been appreciated throughout the project. Thank you for helping us
to make our goals.

Please call me at 303-966-6035 if you have any questions.
